Smart STORAGE SOLUTIONS

FRONT ENTRY

Work with the space you've got to create an organised front entrance in your home. If space is tight, like the entry pictured opposite, consider a small bench seat with storage underneath for shoes, and multiple hooks for coats, hats and bags.

If space permits, a mudroom like this one (pictured this page) can be the stuff of storage dreams. "This mudroom was designed specifically as a space for convenient storage," says designer Michelle Hart of Bask Interiors. "A couple of pull-out drawers underneath the bench seat means shoes can be accessed easily and also put away for a clutter-free area. We installed a few wall hooks for the homeowner to hang up their handbag or coat."
